HUIT Culture & Engagement Workgroup

Charge:

The Culture & Engagement Workgroup will advise HUIT senior leadership on ways that we can enhance our culture so that we can do our best work. To that end, the group will focus on:

- Identifying ways to strengthen our connection to Harvard and its mission.
- Developing a plan to build community within HUIT.
- Ensuring every voice is included in strategies and planning.

FY19 Goals:

1. Develop and launch a HUIT community events calendar.
2. Develop ideas for how our spaces can reflect the HUIT culture. Examples of opportunities include the 784 Gallery and the technology timeline project.
3. Review and validate content to be included in HUIT building guides.

Please contact your Managing Director if you’d like to participate in the workgroup.
